

MANJEET KUMAR

Software Engineer — Backend & API Development

Erode, Tamil Nadu, India | +91 6383976909 | msmanjeetsingh4271@gmail.com
linkedin.com/in/manjeet-kumar-singh-a4b353296 | github.com/Manjeetsingh31

PROFESSIONAL SUMMARY

Software Engineer with a strong foundation in Python, Data Structures, Object-Oriented Programming, DBMS, and SQL. Skilled in building backend applications and RESTful APIs using FastAPI, MySQL, and SQLAlchemy. Experienced in implementing CRUD operations, API testing with Postman and Swagger UI, and using Git for version control. Passionate about building scalable software products, solving real-world engineering problems, and continuously learning modern technologies..

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript (Basic)

Backend & API Development: FastAPI (basic), REST API Design, CRUD Operations

Database Management: MySQL, SQL, DBMS Concepts

Web Technologies: HTML, CSS, JavaScript (basics)

Core Concepts: Data Structures, Object-Oriented Programming (OOP), Problem Solving, Database Management

Tools & Testing: Git, GitHub, Version Control, Postman, Swagger UI, API Testing, VS Code, Jupyter Notebook

AI Productivity Tools: ChatGPT (for coding assistance, debugging, and documentation)

Soft Skills: Communication, Team Collaboration, Fast Learner

EXPERIENCE

Data Science Intern — [Company Name] | *Present*

- Currently working on data analysis and Python-based data handling tasks as part of an ongoing internship.
- Applying core programming and problem-solving skills to real-world datasets under mentorship.

PROJECTS

Student Management REST API | *Python, FastAPI, SQLAlchemy, MySQL, Pydantic, Git, Postman*

- Designed and developed a RESTful API using FastAPI, enabling structured backend communication.
- Implemented full CRUD operations for student records, ensuring reliable data management.
- Connected and managed a MySQL database using SQLAlchemy ORM for efficient data persistence.
- Performed request validation using Pydantic to strengthen API reliability and data integrity.
- Conducted thorough API testing using Swagger UI and Postman to verify endpoint functionality.
- Organized the project using a clean, modular architecture to support scalability and maintainability.
- Used Git and GitHub for version control, maintaining a structured commit history.

Expense Tracker | *Python*

- Developed a Python-based backend application to track daily income and expenses with CRUD functionality.
- Applied file handling and core data structures for efficient data management and reporting.

To-Do List Application | *Python*

- Built a task management application implementing CRUD operations for organized task tracking.
- Applied problem-solving and data structure concepts to improve application logic and performance.

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a responsive personal portfolio website to showcase projects and skills.
- Implemented a modern, mobile-friendly UI with clean design and usability principles.

EDUCATION

B.E. Computer Science and Design — Erode Sengunthar Engineering College, Tamil Nadu

2023 - 2027 | CGPA: 7.9

Higher Secondary (12th, PCM) — DAV Public School, CBSE Board

2021 - 2023 | 62.7%

CERTIFICATIONS

- Web Development Certification
- Python Programming Certification

LANGUAGES

Hindi (Native), English (Intermediate)
